

How to

get rid of grease and wastewater

the right way:

Dump **grease** (like used cooking oil) into a grease dumpster.

Dump **wastewater** and mop water into a mop sink.

And keep these clean:

Grease trap

Call a professional cleaning service at least 1 time a year.

Exhaust hood

Call a professional cleaning service at least 2 times a year. Do *not* clean hood filters outside.

Storm drain

Do **not** pour anything into outdoor storm drains since they direct rainfall to nearby creeks that flow to Lake Erie (not a treatment plant).
